Professional Summary

Energy. Carbon and Climate Change Professional with 3+ years' experience in energy transition, carbon markets, GHG MRV systems, and environmental data analysis across international organizations. An astute problem solver with proven ability to design and manage decarbonization and ESG strategies, climate finance projects, conduct policy analysis, technical modelling, and manage multiple stakeholders.

Work Experience

Climate & Carbon Markets Consultant

Multiple organizations: **Common Fund for Commodities (Amsterdam) & Forestry and Land check**

Remote | July – October 2025

- Supported programme design and administration of an outcomes fund of USD 75M, working closely with investment managers and coordinating inputs across project stakeholders.
- Reviewed and quality-assured 15+ programme documents, reports, and proposals, improving consistency and technical accuracy.
- Delivered climate policy and market analysis supporting climate finance and ESG investment strategies across forestry and land-use sectors contributing to decision-making on multi-country programmes.
- Designed MRV frameworks and monitoring plans for carbon projects (REDD+, PES), supporting projects in South America covering 10,000+ hectares.
- Produced GIS-based environmental analysis and risk assessments for 5 project locations to enhance project visibility, outlining boundaries for monitoring and reporting land-use planning across multiple regions.
- Synthesised 20+ technical reports into KPIs, investment briefs, and programme documentation used for funding proposals.

High Integrity Project Development Officer

Sustainable Energy for All (SEforALL) – ACMI | March – October, 2024

- Contributed to GHG accounting, emissions baselining, and MRV system design working with the Ghana and Nigeria office for early-stage carbon project development.
- Supported delivery and launch of ACMI's digital decarbonization sustainability platform within a \$45,000 budget, attracting 50+ energy project developers across Africa.
- Conducted analysis of Validation and Verification Body (VVBs) readiness in Africa, informing strategies to scale carbon market infrastructure.
- Supported development of the Carbon Hub, aggregating Africa-wide carbon market intelligence and preparing content for integration, including materials from The Nature Conservancy.
- Drafted 4 proposals for fundraising to curate a continent-wide training program on VVB capacity and carbon markets for project developers and policy makers, to be shared with strategic partners.

Intern – Climate Transparency and Carbon Markets

UNFCCC & RCC for East and Southern Africa | July 2023 – February 2024

- Analysed 15+ national GHG inventories and Biennial Update Reports (BURs), identifying data gaps and methodological inconsistencies.
- Conducted research on Article 6, carbon pricing mechanisms, and international climate policy frameworks.
- Supported transition analysis towards Enhanced Transparency Framework (ETF) for developing countries.

- Engaged 20+ carbon project developers across Africa to assess implementation challenges and data constraints.
- Produced technical reports and insights supporting global climate transparency processes.

National Climate Action Fellow - Ghana

Youth Challenge International | February 2021 – May, 2022

- Delivered climate action and green entrepreneurship programmes supporting 300+ youth participants under the HerStart initiative in Ghana.
- Conducted sector-wide stakeholder mapping across public, private, and NGO actors to build a pipeline of resources and partnerships supporting sustainable entrepreneurship for youth entrepreneurs in the Northern region.
- Performed climate policy research reviewing 20 national documents and conducting environmental data analysis to inform programme design and youth-focused climate solutions.
- Facilitated 15 training workshops, mentorship sessions, and stakeholder engagement activities across multiple regions.
- Supported monitoring and evaluation processes, tracking programme outcomes and participant progress with some 10+ mentees successfully unlocking the HerStart Catalyst Fund to start their ventures.

Project Assistant – Ghana

Innovations for Poverty Action (Escaping Poverty Project) | September 2019 – February, 2021

- Coordinated project operations and field implementation, managing movement plans, activity schedules, and daily reporting across multiple research sites.
- Supervised two field auditors, overseeing data-quality checks, discrepancy resolution, and double-entry verification to ensure high-integrity survey datasets.
- Managed the renewal of NHIS cards for 1,300 project participants, coordinating field logistics, stakeholder engagement, and participant verification workflows.
- Oversaw budget management and reconciliation for field activities, ensuring accurate expenditure tracking, compliance, and timely financial reporting.
- Developed and maintained workflow, communication, and tracking systems, improving operational efficiency and supporting rapid decision-making for project leads.

Education

MSc Environmental Science, Policy and Management

Erasmus Mundus Joint Masters Programme (Central European University, University of the Aegean and University of Manchester) | 2024 – 2026

Relevant coursework: Energy Markets, Environmental Impact Assessment, Energy Transition, Environmental Policy, GIS, Quantitative Methods, Pollution Management, Air Quality Assessment, Environmental Pollution Measurement & Prediction
Thesis: *Carbon Capture and Storage (CCS) in the UK Cement Sector – Policy Incentives, Economic Viability and Public Perception (Peak Cluster–Liverpool Bay)*

MSc Climate Change Engineering

Pan African University | 2022 – 2024

Coursework in Advanced Climate Change, Climate Change Mitigation, Climate Science for Policy and Practice, Trans-disciplinarity in Climate Change, Low Carbon Climate Resilient Development, and Climate Change Modelling

Thesis: *The Role of Blockchain in Enhancing Transparency in Carbon Markets in Africa*

BSc Agribusiness (Climate Change & Food Security)

University for Development Studies | 2015 – 2019

Coursework in *Economics, Principles of Micro & Macroeconomics, Sustainable Agriculture Production Economics, Econometrics, Statistics, Agribusiness Management, Marketing and Finance, Climate Change and Food Security, Gender and Rural Development, Sustainable Agriculture, Policy and Administration.*

Certifications

- 2026 – Technical University of Munich: Stanford Global Sustainability Challenge Top Six
- 2024 – Understanding Article 4 – UNFCCC RCC for East and Southern Africa
- 2024 – Entrepreneurship – Pan-African University Institute of Water, Energy and Climate Change
- 2023 - Certificate in Climate Diplomacy: awarded by Konrad-Adenauer-Stiftung - Regional Programme Energy Security and Climate Change
- 2023- Robotics: awarded by Technology for building line tracing robots at the African Start-Up conference
- 2023- French – A1: CEIL Algeria – Université Abou Bekr Belkaid – Tlemcen
- 2023 - Digital Earth Africa: awarded for mapping desertification in Northern Ghana using GIS

Awards

- Stanford Global Sustainability Challenge – Top Six: Adaptation and Resilience, Jury Award - Strategic Thinking
- Schneider Electric Go Green Challenge – Winner (2025) | 6000 EUR Prize and Mentorship from industry experts
- Erasmus Mundus Scholarship (2024)
- Geneva Challenge – 2nd Place, Global Contest (2023)
- PAU African Union Scholarship (2022)
- Tertiary Education Scholarship Trust for Ghana

Additional Information

- Languages: English (Fluent), French (Basic)
- Right to work in the UK: Yes - Graduate Visa
